ABOUT FIRSTBRIDGE

Innovation, passion and sustainability, that touches everybody's life, and cares for the planet.

At FirstBridge™ Solutions, 'Care with Love' is more than just a routine—it's an experience. Our flagship brand, Burgundy™, was born from a passion for high-performance, elegantly crafted, and sustainable auto care products. Each formula—from waterless shampoos to vehicle performance & appearance products—all crafted for real-world results, offering enthusiasts professional-grade performance & aesthetics, at home.

What drives us is not just what we create, but why we create it. Guided by a "customer-first" mind-set and rooted to ethical business values, we treat every customer as part of our extended family. Every bottle of Burgundy™ care product is a promise of trust, innovation, and crafted with care—for your cars and bikes and the planet.

Apart from creating our own brand, we also support aspiring brands through our private label manufacturing services, helping turn their ideas into quality products backed by our technical expertise. As we grow, our purpose remains clear- to build not just a brand, but a community built on trust, quality, and shared passion.

Welcome again to the world of Burgundy™ — where your car gets the care it truly deserves.

“We Are Proud to be part of a Green Business”

At Burgundy, our detailing process represents a significant stride toward environmental stewardship—not only conserving water but also minimizing the release of harmful chemicals into the ecosystem. Our innovative green business approach reflects a deep commitment to sustainability, benefiting the environment, the planet, and the people we serve. At Burgundy, we believe that fostering a greener future begins with awareness. That’s why we are dedicated to educating both our team and our customers on sustainable practices and responsible choices.

BURGUNDY™ RODENT REPELLENT

Burgundy™ rodent repellent is a non-toxic, humane solution with a unique blend and formulation of essential oils to deter rats and other rodents from vehicle's vital areas. These essential oils, typically derived from plants such as peppermint, lemongrass, and tea tree, affects the mucous membrane of rats, making it uncomfortable for them to inhabit the surrounding area. The rats after a long exposure, gradually starts developing a fear to the smell and hence, moves away from the area where it is placed and thus, you can shield your car without the use of poisons or traps or killing the rodents. As result, its application can keep other rats away from the area for a long time. Length of effectiveness depends on air exchange rates and temperature conditions.

- Doesn't kill or harm the animal
- Safely keeps the rodents away from the vehicle

Pack Size

90gmsl

DIRECTIONS FOR USE:

- Remove the cap and replace it with the additional cap (with holes) provided. Lock the container with the tag provided.
- AREA OF USE: Residences, vehicle engine bays, food godowns, factories, shops, hotels.
